February 2013

For February 2013, net remittances were **US\$136.9 million**, a decrease of **US\$7.9 million** or **5.4 per cent** relative to the corresponding period of 2012 (Table 1). The out-turn for February 2013 reflected declines of **5.7 per cent** and **7.1 per cent** in gross inflows and outflows respectively.

Gross remittance inflows for the month were **US\$157.8 million**, a decrease of **US\$9.5 million** or **5.7 per cent** relative to the corresponding month of the previous year. These inflows were above the average of **US\$152.1 million** for the previous five corresponding periods (Graph 1). The fall in total remittance inflows reflected a decrease of **US\$10.0 million** in inflows through *Remittance Companies* (Table 1). The decrease in these flows was partly offset by an increase of **US\$0.5 million** in inflows from *Other Remittances*.

Total remittance outflows for the review month decreased by **US\$1.6 million** to **US\$20.8 million**. The combined impact of inflows and outflows resulted in net remittance flows declining for February 2013.

January to February 2013

Net remittances for 2013 to-date were **US\$264.3 million**, a decline of **US\$6.8 million** or **2.5 per cent** relative to 2011 (Table 2). The out-turn for the review period reflected a decrease in gross inflows, which was partially offset by a decline in outflows.

For the review period total remittance inflows were **US\$309.3 million**, representing an decrease of **US\$7.6 million** or **2.4 per cent**. These inflows were above the average of **US\$294.8 million** for the previous five corresponding periods (Graph 2). However, remittance inflows for the year to-date were marginally below the corresponding pre-crisis (2008) out-turn (Graph 2).

The decrease in total remittance inflows reflected a **US\$6.9 million** or **2.6 per cent** deterioration in inflows through *Remittance Companies*, together with a **US\$0.7 million** or **1.5 per cent** reduction in flows from *Other Remittances* sub-category.

Apr-Feb 2004/05-2012/13

Source: Bank of Jamaica

April to February 2012/13

For the 2012/13 fiscal year to February, net remittances were **US\$1 597.3 million**, a decline of **US\$9.5 million** or **0.6 per cent** relative to the corresponding period of the last fiscal year. This decline reflected a reduction in gross remittance inflows, and a contraction in remittance outflows.

Total remittance inflows for the review period were **US\$1 841.6 million**, a decline of **US\$14.1 million** or **0.8 per cent** compared to the corresponding period of the preceding fiscal year. The reduction in inflows coincides with the implementation of stricter security measures by one large remittance company in August 2012. Despite the contraction, these flows were above the average for the previous five corresponding periods (Graph 3).

The reduction in total remittance inflows reflected a decline of **US\$22.2 million** or **7.9 per cent** in the **Other Remittances** sub-category. However, the contraction in these flows was partly offset by an increase of **US\$8.1 million** or **0.5 per cent** in inflows through **Remittance Companies**. For the review period, the contraction in total remittance inflows was partially offset by a reduction of **US\$4.6 million** in outflows to **US\$244.3 million**.
