May 2013

For May 2013, net remittances were **US\$162.0 million**, an increase of **US\$19.6 million** or **13.7 per cent** relative to the corresponding period of 2012 (Table 1). This resulted from an increase in gross remittance inflows and a contraction in outflows.

Gross remittance inflows for the month were **US\$181.5 million**, an increase of **US\$14.9 million** or **8.9 per cent** relative to the corresponding month of the previous year. These inflows were above the average of **US\$163.1 million** for the previous five corresponding periods (Graph 1). The rise in total remittance inflows emanated from increases of **US\$8.0 million** and **US\$6.9 million** in both the *Remittance Companies* and *Other Remittances* sub-categories, respectively (Table 1).

Total remittance outflows for the review month decreased by **US\$4.7 million** to **US\$19.6 million**. The combined impact of inflows and outflows resulted in net remittance flows increasing for May 2013.

January to May 2013

Net remittances for January to May 2013 were **US\$753.5 million**, which represented a growth of **US\$15.6 million** or **2.1 per cent** relative to 2011 (Table 2). The out-turn for the review period reflected an increase in gross inflows, fortified by a reduction in outflows..

For the review period total remittance inflows were **US\$854.2 million**, representing an increase of **US\$2.6 million** or **0.3 per cent**. These inflows were above the average of **US\$797.4 million** for the previous five corresponding periods (Graph 2). Remittance inflows for the year to-date were above the corresponding pre-crisis (2008) out-turn (Graph 2). However, the growth rate in remittance inflows has seen a deceleration since 2010.

The increase in total remittance inflows reflected a **US\$13.5 million** or **10.8 per cent** improvement in inflows through **Other Remittances**, together with a **US\$10.9 million** or **1.5 per cent** reduction in flows from **Remittance Companies** sub-category.

For the review period, the positive growth in net remittances inflows was also due to a contraction of **US\$13.0 million** in outflows.

April to May 2013/14

For the 2013/14 fiscal year to May, net remittances were **US\$322.0 million**, an increase of **US\$20.8 million** or **6.9 per cent** relative to the corresponding period of the last fiscal year. This growth reflected an increase in gross remittance inflows and a contraction in remittance outflows.

Total remittance inflows for the review period were **US\$361.7 million**, an increase of **US\$14.9 million** or **4.3 per cent** compared to the corresponding period of the preceding fiscal year. The rise in total remittance inflows emanated from increases of **US\$3.3 million** and **US\$11.6 million** in both the *Remittance Companies* and *Other Remittances* sub-categories, respectively (Graph 3).

The remittance inflows of **US\$361.7 million** for 2013/14 fiscal year to-date represents the largest inflow since FY 2008/09 pre-crisis outturn (Graph 3).
