November 2010

For November 2010, net remittances were **US\$129.5 million**, which represented an improvement of **US\$7.7 million** or **6.3 per cent** relative to the corresponding period of 2009. (Table 1) This resulted from an increase in gross inflows and a decline in remittance outflows.

During the month, total remittance inflows were **US\$150.1 million**, an improvement of **US\$7.4 million** or **5.2 per cent**. This improvement emanated from a **US\$7.9 million** increase in the *Remittance Companies* sub-category. The increase in total remittance inflows was marginally offset by a **US\$0.5 million** decline in the *Other Remittances* sub-category (Table 1). For the review month, a decline in remittance outflows of **US\$0.3 million**, further contributed to the positive growth in net remittances

For the month, remittance inflows of **US\$150.1 million**, despite being below the pre-crisis level recorded in 2007, represent a continuation of the increase noted in November 2009 (Graph 1). This improvement resulted primarily from increased inflows through Remittance companies.

Historical Trend in Remittance Inflows
January- Nov 2002-2010

Source: Bank of Jamaica

January to November 2010

For eleven months of the 2010 calendar year, net remittances were **US\$1,487.8 million**, which represented an increase of **US\$91.6 million** or **6.6 per cent** relative to the corresponding period of 2009 (Table 2).

For the calendar year to November, total remittance inflows were **US\$1,713.0 million**, representing an increase of **US\$103.6 million** or **6.4 per cent**. This increase in total remittance inflows emanated mainly from improvements in inflows to both the **Remittance Companies**, and the **Other Remittances** sub-categories. **Remittance Companies** recorded an increase of **US\$81.2 million** or **5.9 per cent** **US\$43.8 million** or **4.3 per cent**, while **Other Remittances** had an increase of **US\$22.4 million** or **9.4 per cent** compared to the corresponding period in 2009. The increase in net remittances was partially offset by an increase in outflows of **US\$12.0 million**.

Although marginally better than the corresponding period in 2009, remittance inflows of **US\$1,713.0 million** were still below the pre-crisis (2008) trend (Graph 2). A continued improvement in remittance inflows in ensuing months is juxtaposed on the improving macroeconomic conditions in source economies.

Historical Trend Remittance Inflows
Apr-Nov 2002-2010

Source: Bank of Jamaica

April to November 2010/11

For the first eight months of the 2010/11 fiscal year (FY), net remittances were **US\$1,086.6 million**, which represented an increase of **US\$46.8 million** or **4.5 per cent** relative to the corresponding period of the previous fiscal year.

For the FY-to-November, total remittance inflows were **US\$1,260.7 million**, representing an increase of **US\$63.7 million** or **5.3 per cent** over the corresponding period of the preceding fiscal year. The increase in total remittance inflows emanated from both *Remittance Companies* and the *Other Remittances* sub-categories. *Remittance Companies* recorded an increase of **US\$43.8 million** or **4.3 per cent**, while *Other Remittances* had an increase of **US\$19.8 million** or **11.3 per cent**. The increase in net remittances was partially offset by an increase in outflows of **US\$16.8 million**.

The remittance inflows of **US\$1,260.7 million** for the first eight months of the 2010/11 fiscal year represents a reversal of the decline noted in the corresponding period in fiscal year 2009/10 (Graph 3). This was consistent with the global developments occurring during the review period.
