### August 2013

For August 2013, net remittances were **US\$155.5 million**, an increase of **US\$7.6 million** or **5.2 per cent** relative to the corresponding period of 2012 (Table 1). The growth in net remittance inflows reflected an increase in gross remittance inflows as outflows remained flat at **US\$22.3 million**.

Gross remittance inflows for the month were **US\$177.8 million**, an increase of **US\$7.6 million** or **4.5 per cent** relative to the corresponding month of the previous year. These inflows were above the average of **US\$163.9 million** for the previous five corresponding periods (Graph 1). The rise in total remittance inflows reflected an increase of **US\$8.3 million** in inflows through *Remittance Companies* and a decrease of **US\$0.7 million** in inflows via *Other Remittances* (Table 1).

### Twelve-month Remittance Flows

Gross remittance inflows contracted by **0.6 per cent** or **US\$12.0 million** over the 12-month period to August 2013. This compares with an increase of **2.9 per cent** or **US\$57.7 million** for the 2011/12 corresponding period. Outflows for the review period also contracted but at a faster pace of **6.6 per cent** or **US\$17.7 million** compared with **4.6 per cent** or **US\$11.7 million** for the corresponding 2011/12 period. Consequently, net remittances grew by **0.3 per cent** or **US\$5.7 million** for the 12 months to August 2013 compared with **2.6 per cent** or **US\$46.0 million** for the 2011/12 period (Table 7).

**January to August 2013**

Net remittances for January to August 2013 were **US\$1 204.0 million**, which represented a growth of **US\$18.8 million** or **1.6 per cent** relative to 2012 (Table 2). The out-turn for the review period reflected an increase in gross remittance inflows and a contraction in outflows.

For the review period total remittance inflows were **US\$1 368.5 million**, an increase of **US\$2.8 million** or **0.2 per cent**. These inflows were above the average of **US\$1 323.0 million** for the previous five corresponding periods (Graph 2). Remittance inflows for the year-to-date were marginally above the corresponding pre-crisis (2008) out-turn (Graph 2).

The increase in total remittance inflows reflected a **US\$10.0 million** or **5.1 per cent** growth in inflows through *Other Remittances*, which was partly offset by a **US\$7.3 million** or **0.6 per cent** reduction in flows through the *Remittances Companies* sub-category (Table 2).

**April to August 2013/14**

For the 2013/14 fiscal year to August, net remittances were **US\$772.6 million**, an increase of **US\$24.1 million** or **3.2 per cent** relative to the corresponding period of the last fiscal year. This growth reflected an increase in gross inflows which were supported by a contraction in outflows.

Total remittance inflows for the review period were **US\$876.0 million**, the highest ever recorded. (Graph 3). The rise of **US\$15.1 million** or **1.8 per cent** in total remittance inflows for the reporting period, relative to a year ago, reflected an increase of **US\$8.1 million** in inflows through **Other Remittances** and an increase of **US\$7.0 million** in inflows via **Remittance Companies** (Table 3).
