May 2011

For May 2011, net remittances were **US\$142.3 million**, which represented an improvement of **US\$8.3 million** or **6.2 per cent** relative to the corresponding period of 2010 (Table1). This resulted from an increase in gross inflows though partially offset by increases in remittance outflows.

During the month, total remittance inflows were **US\$166.1 million**, an improvement of **US\$10.1 million** or **6.4 per cent**. The increase in total remittance inflows emanated from increases in both the *Remittance Companies* and *Other Remittances* sub-categories of **US\$7.2 million** and **US\$2.9 million**, respectively (Table1). For the review month, increases in outflows of **US\$1.8 million**, partially offset the positive growth in net remittances.

For the month, remittance inflows of **US\$166.1 million** represent the highest inflows seen for May since 2009 (Graph 1). This improvement resulted primarily from increased inflows through Remittance Companies.

Graph 2
Historical Trend in Remittance Inflows
Jan - May 2002-2011

Source: Bank of Jamaica

January to May 2011

For the first five months of 2011, net remittances were **US\$715.8 million**, which represented an increase of **US\$39.5 million** or **5.8 per cent** relative to the corresponding period of 2010 (Table 2).

For the review period, total remittance inflows were **US\$820.8 million**, representing an increase of **US\$50.3 million** or **6.5 per cent**. The increase in total remittance inflows emanated from improvements in inflows to both the **Remittance Companies**, and the **Other Remittances** sub-categories. **Remittance Companies** recorded an increase of **US\$40.9 million** or **6.2 per cent**, while **Other Remittances** had an increase of **US\$9.4 million** or **8.2 per cent** compared to the corresponding period in 2010. For the review month, increases in outflows of **US\$10.8 million**, partially offset the positive growth in net remittances.

Although marginally better than the corresponding period in 2010, remittance inflows of **US\$820.8 million** were still below the pre-crisis (2008) trend (Graph 2). A continued improvement in remittance inflows in ensuing months is juxtaposed on the improving macroeconomic conditions in source economies.

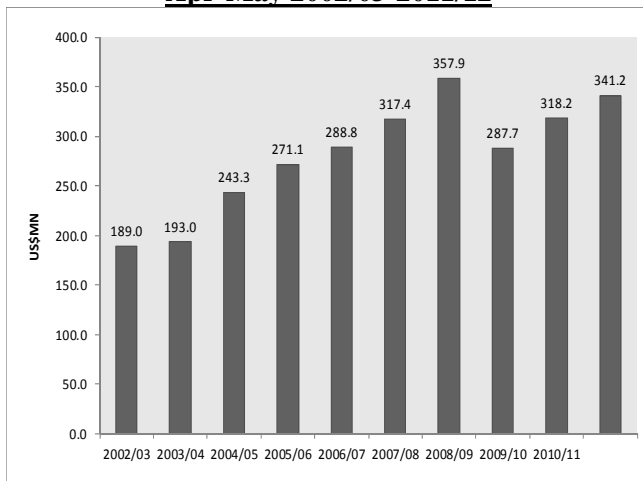

Table 3

JAMAICA'S REMITTANCES (US\$MN)				
	April-May			
	2010/11	2011/12	Change	% Change**

Graph 3
Historical Trend in Remittance Inflows
Apr-May 2002/03-2011/12

Source: Bank of Jamaica

April to May 2011/12

For the first two months of the 2011/12 fiscal year (FY), net remittances were **US\$294.5 million**, which represented an increase of **US\$19.4 million** or **7.1 per cent** relative to the corresponding period of the previous fiscal year.

For the FY-to-May, total remittance inflows were **US\$341.2 million**, representing an increase of **US\$23.0 million** or **7.2 per cent** over the corresponding period of the preceding fiscal year. The increase in total remittance inflows emanated from both *Remittance Companies* and the *Other Remittances* sub-categories. *Remittance Companies* recorded an increase of **US\$18.9 million** or **7.0 per cent**, while *Other Remittances* had an increase of **US\$4.0 million** or **8.3 per cent**.

The remittance inflows of **US\$341.2 million** for the first two months of the 2011/12 fiscal year represents an increase over that which was noted in the corresponding period in fiscal year 2010/11 (Graph 3). This was consistent with the global developments occurring during the review period.
