## BALANCE OF PAYMENTS METHODOLOGY

The presentation format of Jamaica's Balance of Payments (BOP) has been revised to conform with the international standard as embodied in the 5th edition of the BOP manual published by the International Monetary Fund (IMF). The revisions have been made largely to harmonize the Balance of Payments statistics with the internationally accepted System of National Accounts (SNA) and the IMF's international statistical system.

### Major Categories of the Balance of Payments

The new presentation of the Balance of Payments still consists of two main accounts. These are the Current Account and the Capital and Financial Account.

#### A. CURRENT ACCOUNT

The current account is further sub-divided into the Goods and Services, Income and Current transfers sub-accounts.

1. **The Goods and Service Sub-account** covers merchandise trade, travel, transportation and other services.
  - a. **Merchandise Trade:** This encompasses general merchandise, free zone imports and exports and goods procured in ports by international carriers.
  - b. **Travel:** Travel covers the goods and services acquired for personal consumption from an economy by persons staying for less than one year in the economy of which he/she is not a resident. This item includes travel for leisure, business, medical and educational purposes. Expenditure by seasonal workers are also included.
  - c. **Transportation:** This covers those services that involve the carriage of passengers, movement of goods (freight), charter of carriers with crew and other supporting services.
  - d. **Other Services:** Included in this group are services relating to communication, construction, insurance, finance, computer and information, personal, cultural and recreational activities, government and royalties and licenses fees.
2. **The Income sub-account** encompasses the compensation of employees and investment income such as profits, reinvested earnings, interest, dividends and other income.
3. **The Current Transfers sub-account** covers transactions such as taxes on income, workers' remittances, premiums and claims on non-life insurance.

- B. THE CAPITAL AND FINANCIAL ACCOUNT** has two major components, the Capital Account and the Financial Account.
- 1. The Capital Account** covers (a) capital transfers and (b) the acquisition/disposal of non-produced, non-financial assets.
    - a. Capital transfers** include the transfer (as gift, grant or bequest) of ownership of fixed assets, and funds linked to disposal/acquisition of fixed assets and the cancellation of debt by creditor.
    - b. Acquisition/disposal of non-produced, non-financial assets** involves intangibles such as patents, leases and the purchases/sales of land by foreign embassies.
  - 2. The Financial Account** covers (a) direct investment (b) portfolio investment (c) other investments (trade credits, loans, currencies and deposits) and (d) official reserves.

While the composition of the accounts may have changed in some instances, the new presentation still facilitates identification of performance of familiar categories including merchandise trade, services, the current account, public and private capital flows and changes in official reserves.

### **Tables 28.0-28.1 - Stock Exchange Index and Activities**

Compiled from monthly trading data submitted by the Jamaica Stock Exchange.

As of June 1, 2000, the Jamaica Stock Exchange began dissemination of three-market capitalization indices, the JSE Index, the JSE All Jamaican Composite and the JSE Select.

The JSE Index (base June 30, 1969 = 100) is an index of all the equities traded on the Stock Exchange. the index is weighted by the market capitalization of each equity.

The JSE Composite Index (base May 1, 2000 = 31931) is an index of All Equities of Jamaican Companies traded on the Stock Exchange.

The JSE Select (base June 1, 2000 = 1000) is an index of the fifteen (15) most liquid stocks trading on the exchange based on times traded and trade volume. The composition of this index is revised on an annual basis.

### **Calculation of Jamaica Stock Exchange (JSE) Market Index**

The JSE uses the following formulae to compute its market indices:

- $\text{Current Index} = \text{Sum}(\text{Issued Volume} \times \text{Current Last Sale Price}) \div \text{Index Base}$
- $\text{Index Change} = \text{Sum}(\text{Issued Volume} \div \text{Last Sale}(\text{Current} - \text{Previous})) \div \text{Index Base}$   
Alternatively,
- $\text{Index Change} = \text{Current Market Index} - \text{Previous Market Index}.$

The Index Base is adjusted whenever:

- The issued volume of a listed company changes as a result of the distribution of additional shares from Rights Issues and/or New Issues;
- The market capitalization increases as a result of the listing of a new company;
- The market capitalization declines, as a consequence of the de-listing of a (listed) company.

**N.B.** Observe that bonus issues and stock splits do not impact market capitalization since both the issued volume and the quoted market price of the particular security would have been adjusted to reflect the split or bonus. As a result, the Base Divisor remains unchanged.

### **Table 29 - International Reserves**

The format reflects:

- (a) Column 5 - Bank of Jamaica's net international reserves position excluding the Bank's medium term liabilities which are usually treated 'above the line' or in the capital account of the balance of payments.
- (b) Column 9 - The country's net official foreign position which includes the Bank of Jamaica's net international reserve position (column 5) as well as those of the Central Government and Selected Public Agencies. The changes in these stock figures normally provide an indication of the country's overall balance of payments surpluses or deficit position for a given period of time.
- (c) Column 12 - The medium term liabilities of the net foreign position of the commercial banks are added to Column 9 to provide a broader concept of the country's foreign position.

Data on the Government sector are obtained from the Accountant General and Government's fiscal agents. Sources for the banking sector are returns of assets and liabilities of the Bank of Jamaica and the commercial banks. Official institutions are: Export Development Fund, Banana Industry Insurance Fund, Banana Board, Coconut Industry Board and the Sugar Industry Authority.
