### July 2022:

Net remittance inflows of **US\$288.0 million**, declined by **4.7 per cent** or **US\$14.4 million** in comparison to July of 2021 (Chart 1). Total remittance inflows also declined, decreasing by **US\$18.1 million**, partly offset by a reduction of **US\$3.7 million** or **17.5 per cent** in total remittance outflows. The decline in total gross remittance inflows largely reflected a fall of **7.3 per cent** in inflows via *Remittance Companies* partly offset by an increase in Inflows via the Other Remittances channel of **4.4 per cent** for the month of July (Table 1). The decline in remittance inflows is partly due to a decline in economic conditions in the main source markets, the US and the United Kingdom, as well as increased cash in hand remittances as travel recovers.

### Fiscal-Year-to- July 2022/23:

Net remittance inflows of **US\$1102.1 million** decreased by **3.9 per cent** or **US\$44.9 million** relative to the corresponding period in the 2021/22 fiscal year. This decline emanated from a decrease of **4.7 per cent** or **US\$57.5 million** in total remittance inflows partly offset by a decrease of **16.4 per cent** or **US\$12.6 million** in total remittance outflows (Table 1).

### Source of Remittance Inflows:

The largest source market of remittance flows to Jamaica for July 2022 continued to be the USA. Remittances from the USA accounted for **70.2 per cent**, of total flows down from **70.4 per cent** recorded for July 2021. Other source countries which contributed a notable share of remittances for the month were Canada at **11.3 per cent**, followed by UK and the Cayman Islands at **9.3 per cent** and **5.6 per cent**, respectively (Chart 2).

### Comparison with Other Countries:

For the January to July 2022 period remittance inflows to Jamaica amounted to, **US\$1959.4 million** (Chart 4). This outturn represented a decline of **3.4 per cent** as opposed to Mexico which registered growth of **16.5 per cent** while Salvador registered growth of **3.1 per cent** for the period (Chart 3).
