* Bankers and Other Deposits adjusted for reclassification of Open Market Operations data.

** Deposits decreased as a result of the application of \$13Bn in 2008 to pay off Finsac Debentures to BOJ.

** Since December 2013, the Other Deposits figure includes US\$ CDs.

Total Number of Commercial Banks			7	7	7	6	6	6	8

⁺ Sagicor Group Jamaica has acquired RBC Royal Bank (Jamaica) Limited and RBTT Securities Jamaica Limited (collectively “RBC Jamaica”) from Royal Bank of Canada.

[^] In June 2011 FCIB co-branded under the CIBC banner, adopting the branding CIBC FirstCaribbean.

¹ PanCaribbean Bank Limited changed its name to Sagicor Bank Jamaica Limited (SBJ) with effect from 17 December 2012. Effective 16 August 2013, the assets and liabilities of FirstCaribbean International Building Society (FCIBS) were transferred to FirstCaribbean International Bank (Jamaica) Limited, pursuant to a scheme of amalgamation in accordance with section 39B (1) of the Building Societies Act and approval of the Minister of Finance.

² Jamaica National Bank added in February 2017.

³ Jamaica Money Market Brokers Ltd (JMMB) Merchant Bank is now a licensed commercial bank operating as JMMB Bank (Jamaica) Ltd as at August 2017.

* These institutions are Pension Service Providers

** Prior to 2005 Securities Firms were defined to include Unit Trust Managers

*** Pensions data prior to 2007 were based on a survey done by the Financial Services Commission

Includes Pensions Assets under management *only*

Since December 2013, there have been eleven (11) registered general insurance companies, however only 9 are conducting insurance business.

Note: Please note that Pan Carinibbean Financial Services and the NCB Capital Markets are both a securities firm and Unit trust fund company. They are not included among the unit Trust Companies.

* For Deposits of \$100,000 and over

The rates of interest being offered on time deposits relate to amounts J\$100,000 and over.

The savings rate represents an average range of rates offered on all categories of savings deposits.

The average lending rate is a simple average of the range of interest rates offered on demand loans only.

** preliminary

The increase in securities for July 2017 reflects purchase of US Treasuries.

* Please note that there has been a downward adjustment to the value of Currency and Deposits as a result of a reclassification of the IMF reserve position.

Effective 1 March 2017, amounts previously included in other foreign liabilities are no longer a part of BOJ's total foreign liabilities

* Balance of Payments Manual (6th Edition) - see Appendix 3 & Notes

The Capital Account balance recorded a surplus of US\$1.5 billion in September 2015, primarily reflecting the discounted amount related to the PetroCaribe debt repurchase.

The net lending balance in the Financial Account of US\$1.0 billion for September 2015 was mainly driven by transactions relating to the PetroCaribe debt repurchase.

~ Banana Export Data

** There was no petroleum production in May 2013. This was due to scheduled maintenance activities.

.. Unavailable

***Petrojam Refining Unit was shut down during August 2 – October 11, 2014 due to scheduled re-generation exercise; the unit ran for 2 days in the month of August, hence the low production numbers.

**MONETARY POLICY AND FOREIGN EXCHANGE RATE
LIQUID ASSETS AND CASH RESERVE RATIOS**

2017/03/01 Cash reserve ratio of Commercial Banks in respect of local currency liabilities remained unchanged at twelve per cent (12%). Cash reserve ratio of Commercial Banks in respect of foreign currency liabilities increased from twelve per cent (12%) to fourteen per cent (14%).

Cash reserve ratio of FIA Institutions in respect of local currency liabilities remained unchanged at twelve per cent (12%). Cash reserve ratio of FIA Institutions in respect of foreign currency liabilities increased from twelve per cent (12%) to fourteen per cent (14%).

Cash reserve ratio of Building Societies in respect of local currency liabilities remained unchanged at twelve per cent (12%). Cash reserve ratio of Building Societies in respect of foreign currency liabilities increased from twelve per cent (12%) to fourteen per cent (14%).

2017/03/01 Liquid Assets ratio of Commercial Banks in respect of local currency liabilities remained at twenty six per cent (26%). Liquid Assets ratio of Commercial Banks in respect of foreign currency liabilities increased from twenty six per cent (26%) to twenty eight per cent (28%).

Liquid Assets ratio of FIA Institutions in respect of local currency liabilities remained at twenty six per cent (26%). Liquid Assets ratio of FIA Institutions in respect of foreign currency liabilities increased from twenty six per cent (26%) to twenty eight per cent (28%).

Liquid Assets ratio of Building Societies in respect of local currency liabilities remained at twenty six per cent (26%). Liquid Assets ratio of Building Societies in respect of foreign currency liabilities increased from twenty six per cent (26%) to twenty eight per cent (28%).

NOTE: Cash Reserve and Liquid Assets requirements are differentially applied to building societies not meeting a prescribed threshold of qualifying assets (residential mortgage lending) in relation to savings funds. Building societies that meet the prescribed 'qualifying assets' threshold attract lower requirements of 1.0 per cent and 5.0 per cent for the cash reserve and liquid assets ratios respectively. Building Societies which do not satisfy the prescribed threshold are required to meet the higher requirements which apply to commercial banks and FIA licensees.

2017/04/03 Cash reserve ratio of Commercial Banks in respect of local currency liabilities remained unchanged at twelve per cent (12%). Cash reserve ratio of Commercial Banks in respect of foreign currency liabilities increased from fourteen per cent (14%) to fifteen per cent (15%).

Cash reserve ratio of FIA Institutions in respect of local currency liabilities remained unchanged at twelve per cent (12%). Cash reserve ratio of FIA Institutions in respect of foreign currency liabilities increased from fourteen per cent (14%) to fifteen per cent (15%).

Cash reserve ratio of Building Societies in respect of local currency liabilities remained unchanged at twelve per cent (12%). Cash reserve ratio of Building Societies in respect of foreign currency liabilities increased from fourteen per cent (14%) to fifteen per cent (15%).

2017/04/03 Liquid Assets ratio of Commercial Banks in respect of local currency liabilities remained at twenty six per cent (26%). Liquid Assets ratio of Commercial Banks in respect of foreign currency liabilities increased from twenty eight per cent (28%) to twenty nine per cent (29%).

Liquid Assets ratio of FIA Institutions in respect of local currency liabilities remained at twenty six per cent (26%). Liquid Assets ratio of FIA Institutions in respect of foreign currency liabilities increased from twenty eight per cent (28%) to twenty nine per cent (29%).

Liquid Assets ratio of Building Societies in respect of local currency liabilities remained at twenty six per cent (26%). Liquid Assets ratio of Building Societies in respect of foreign currency liabilities increased from twenty eight per cent (28%) to twenty nine per cent (29%).

NOTE: Cash Reserve and Liquid Assets requirements are differentially applied to building societies not meeting a prescribed threshold of qualifying assets (residential mortgage lending) in relation to savings funds. Building societies that meet the prescribed 'qualifying assets' threshold attract lower requirements of 1.0 per cent and 5.0 per cent for the cash reserve and liquid assets ratios respectively. Building Societies which do not satisfy the prescribed threshold are required to meet the higher requirements which apply to commercial banks and FIA licensees.

- 2017/07/03 BOJ 14- day Repurchase operation was conducted for provision of Jamaica Dollar liquidity amounting to \$2,000,000,000.00 to DTI's. The amount offered was allocated through a competitive price auction. Following the auction, the weighted average yield was 5.85 per cent.
- 2017/07/10 BOJ 14- day Repurchase operation was conducted for provision of Jamaica Dollar liquidity amounting to \$4,000,000,000.00 to DTI's. The amount offered was allocated through a competitive price auction. Following the auction, the weighted average yield was 5.68 per cent.
- 2017/07/17 BOJ 14- day Repurchase operation was conducted for provision of Jamaica Dollar liquidity amounting to \$4,000,000,000.00 to DTI's. The amount offered was allocated through a competitive price auction. Following the auction, the weighted average yield was 5.87 per cent.
- 2017/07/24 BOJ 14- day Repurchase operation was conducted for provision of Jamaica Dollar liquidity amounting to \$4,000,000,000.00 to DTI's. The amount offered was allocated through a competitive price auction. Following the auction, the weighted average yield was 5.13 per cent.
- 2017/07/31 BOJ 14- day Repurchase operation was conducted for provision of Jamaica Dollar liquidity amounting to \$1,300,000,000.00 to DTI's. The amount offered was allocated through a competitive price auction. Following the auction, the weighted average yield was 5.14 per cent
- 2017/08/04 BOJ 14- day Repurchase operation was conducted for provision of Jamaica Dollar liquidity amounting to \$1,000,000,000.00 to DTI's. The amount offered was allocated through a competitive price auction. Following the auction, the weighted average yield was 5.07 per cent
- 2017/08/14 BOJ 14- day Repurchase operation was conducted for provision of Jamaica Dollar liquidity amounting to \$500,000,000.00 to DTI's. The amount offered was allocated through a competitive price auction. Following the auction, the weighted average yield was 5.03 per cent
- 2017/08/21 BOJ 14- day Repurchase operation was conducted for provision of Jamaica Dollar liquidity amounting to \$500,000,000.00 to DTI's. The amount offered was allocated through a competitive price auction. Following the auction, the weighted average yield was 5.01 per cent

- 2017/09/04 BOJ 14- day Repurchase operation was conducted for provision of Jamaica Dollar liquidity amounting to \$500,000,000.00 to DTI's. The amount offered was allocated through a competitive price auction. Following the auction, the weighted average yield was 4.77 per cent
- 2017/09/18 BOJ 14- day Repurchase operation was conducted for provision of Jamaica Dollar liquidity amounting to \$500,000,000.00 to DTI's. The amount offered was allocated through a competitive price auction. Following the auction, the weighted average yield was 4.76 per cent

MONETARY POLICY AND FOREIGN EXCHANGE RATE DEVELOPMENTS

OTHER POLICY DEVELOPMENTS

- 2011/06/20 FirstCaribbean International Bank now branded under the CIBC banner as CIBC FirstCaribbean International Bank.
- 2011/07/11 RBTT Bank Jamaica Ltd was rebranded RBC Royal Bank (Jamaica) Ltd.
- 2012/07/20 Bank of Jamaica advised that the 2012 issue of four of the five denominations of Bank notes - \$1,000, \$500, \$100, \$50 – which will be released into general circulation on Monday July 23, 2012, would be printed on more durable substrates. Changes became necessary as The Bank seeks to extend the useful life of the banknotes.
- 2012/07/20 Bank of Jamaica advised that the special series of banknotes to commemorate Jamaica's 50 years of political independence will be released in to general circulation on Monday 23 July 2012 and would be available at all commercial banks as at that date.
- 2013/12/31 As part of the programme of reform to develop and strengthen the financial system and, in particular, to facilitate the introduction of collective investment schemes (CIS) in 2014, the Bank of Jamaica announced a timetable for raising the cap on investments in foreign currency securities which currently applies to securities dealers and CIS. The prevailing cap on such investments (with the exception of those categories exempted by Ministerial Order) was 5 per cent. The cap will be lifted in steps to at least 25% by end 2015 with the intention to remove the cap by the end of 2016, unless extraordinary circumstances require a reassessment. Financial entities would be subjected to the prudential standards applicable to each sector of the industry in order to preserve financial stability.
- 2014/1/03 For the period 24 to 31 December 2013, the Bank of Jamaica recorded net currency redemption of \$57.4 million or 0.08 per cent from the commercial banks, building societies and cambios. This net redemption resulted in the stock of currency as at 31 December 2013 being \$69.8 billion which implied a net increase of \$11.5 billion or 19.6 per cent in currency issue for the month. The increase for the month was largely in line with the Bank's projection for growth of 19.0 per cent (see Chart 1). Given the outturn for the month, annual growth in currency issue was 7.9 per cent for 2013 compared to an increase of 3.3 per cent for 2012.
- The Bank anticipated that the majority of the currency issued during December 2013 would be redeemed during January 2014. Over the last five years, net currency redemption in January averaged 79.2 per cent of net currency issued in the preceding December.

BALANCE OF PAYMENTS METHODOLOGY

Introduction to the Balance of Payments Manual 6th Edition

Background to BPM6

Since the first edition of the Balance of Payments Manual (BPM) was published in 1948, developments in global transactions have created the need for amendments to the publication, which adequately capture international economic transactions. Currently, the manual utilized by most economies is the Fifth Edition (BPM5), which was published in 1993. However, the Sixth Edition (BPM6) of the manual was released in 2009 and is titled the *Balance of Payments and International Investment Position Manual*.

Transition to BPM6

Recent releases of the Bank of Jamaica (BOJ) Quarterly Balance of Payments (BOP) Report included a BPM6 introductory feature which has been included as a parallel transition towards the complete reformatting of this publication in accordance with BPM6 reporting standards. From now on, all BOP reports will be published using the BPM6 methodology exclusively. As illustrated, this new methodology includes more detailed *Financial Account* data which is aimed at enhancing the understanding of how net lending is invested and how net borrowing is financed, among other changes.

Understanding BPM6

One major change in the sixth edition of the Balance of Payments (BOP) manual is that the *Capital Account* will no longer be grouped with the *Financial Account*, but with the *Current Account* instead. The overall balance from the *Current* and the *Capital account* is now referred to as *Net Lending or Borrowing*. Also, the use of debits and credits for the *Financial Account* is replaced by *Net Acquisition of Financial Assets* and the *Net Incurrence of Liabilities*.

BPM6 also introduces the categories of *Primary* and *Secondary Income*, which are conceptually consistent with the System of National Accounts (SNA). *Primary Income* encompasses returns that accrue to institutional units for their contribution to the production process or for the provision of financial assets and renting of natural resources, while *Secondary Income* represents *Current Transfers* between residents and non-residents. Please see mapping of BPM5 terminologies with the new terminologies found in BPM6 on next page.

Glossary (BPM5)

Balance of Payments

The balance of payments (BOP) is a summary of economic activities between the residents of a country and the rest of the world during a given period, usually one year. The main purpose of keeping these records is to inform government authorities of the overall international economic position of the country in order to assist them in arriving at decisions on monetary and fiscal policy, on the one hand, and trade and payments policy on the other. BOP statistics are therefore helpful to government authorities charged with maintaining macroeconomic stability.

The BOP is divided into two main categories according to the broad nature of the transactions. These categories are:

1. *The Current Account, and*
2. *The Capital and Financial Account*

1. Current Account

The current account includes all transactions (excluding those recorded in the capital and financial account) between resident and non-resident entities that involve economic value. This account is sub-divided into:

- a. *Goods and Services*
- b. *Income, and*
- c. *Current Transfers*

a. The **Goods** and **Services** account covers merchandise trade, travel, transportation and other services.

i. **Merchandise trade** records the value of exports and imports, of tangible goods, including those of the free-zones and goods procured in ports by international carriers.

ii. **Travel** covers goods and services acquired from an economy by non-resident travellers for business and personal purposes during their visits (of less than one year). Expenditures made by seasonal workers (e.g. Jamaican farm workers) and those for educational and health-related purposes made by students and medical patients are recorded in this sub-account.

iii. **Transportation** covers all transportation services (sea, air and land), bought and sold, that involve the carriage of passengers, movement of goods (freight), charter of carriers with crew and other supporting services.

iv. **Other Services** consist of the purchase and sale of: communication services, construction services, insurance services, financial services, computer and information services, royalties and licences fees and government services.

b. **Income** encompasses the compensation of employees, that is, salaries, wages and benefits of seasonal and other non-resident workers. In addition, it includes investment income that consists of dividends, profits, reinvested earnings, interest on debt and income on portfolio investment.

c. **Current Transfers** cover transactions such as taxes on income, workers' remittances, and premiums and claims on non-life insurance.

2. Capital and Financial Account

The **capital** and **financial** account records transactions that directly affect the wealth and debt of the country. The account is sub-divided into two main categories:

a. *The Capital Account, and*

b. *The Financial Account*

a. The Capital Account covers (i) capital transfers and (ii) the acquisition/disposal of non-produced, non-financial assets.

(i) **Capital Transfers** include the transfer of ownership of fixed assets, the transfer of funds linked to disposal/acquisition of fixed assets and the cancellation of debt by creditors. Acquisition/disposal of non-produced, non-financial assets mainly involves intangibles such as patents and leases. It also includes purchases and sales of land by foreign embassies.

b. The Financial account covers (i) direct investment, (ii) portfolio investment, (iii) other investments (trade credits, loans, currencies and deposits) and (iv) changes in reserves.

(i) **Direct Investment** is the category of international investment in which a resident entity in one economy acquires or disposes of 10 per cent or more of the ordinary shares or voting power of an enterprise located in another economy and has an effective voice in management.

(ii) **Portfolio Investment** covers transactions in equity securities and debt securities. With respect to equity, a portfolio investment would imply less than 10 per cent ownership of the voting power of an enterprise located in another country. Debt securities include bonds and notes, money market instruments and financial derivatives.

(iii) ***Other Investment*** is a residual category that includes all financial transactions not covered in direct investment, portfolio investment or reserve assets. It includes trade credits, (the direct extension of credit by suppliers to buyers of goods and services), loans to finance trade, other loans and advances and financial leases.

(iv) ***Reserves*** represent the foreign exchange which the country has available for financing an imbalance of payments with the rest of the world.

Notes

To Statistical Tables

Particular acknowledgement is made to the firms, institutions and Government Departments which have allowed the Bank to use their published data or other material or have assisted the Bank in the collection of statistics. Differences compared with previously published figures are due to subsequent revisions.

MONETARY AUTHORITIES

Table 1 - Monetary Survey

A monetary survey of money and credit based on the operations of the banking system and Central Government, compiled from monthly returns of assets and liabilities of the Central Bank, commercial banks and Central Government returns.

Foreign Assets (net) = foreign assets held by the banking system and Central Government less foreign liabilities of the Banking system. Statutory Sinking Fund investments are excluded.

Credit to Public Sector (net) = total holdings of Government securities and other claims on Government and public entities deposits with the banking system and Central Government's foreign assets.

Credit to the Private Sector = commercial banks' loans and advances to private institutions and individuals plus bills discounted payable in Jamaica plus other internal investments plus Bank of Jamaica discounts and advances and investments to the private sector.

Demand Deposits (adjusted) = commercial banks' demand deposits of private institutions and individuals plus bankers' drafts outstanding, less cash items in the process of collection.

Currency with the public = the total currency liability of the Central Bank, less currency held in commercial banks and the Central Bank.

Table 2 - Changes in Determinants of Money Supply

This table is based on monetary survey table. Data in this table show changes in the various factors affecting money supply. Minus sign denotes contractionary influence: no sign denotes expansionary influence.

Table 3 - Monetary Authorities Accounts

A monthly consolidated summary of the monetary assets and liabilities of the Central Bank and Central Government.

Foreign Assets = Net Foreign Assets held by the Bank of Jamaica and Central Government.

Claims on Central Government = Government advances and securities held by the Bank of Jamaica, less Central Government foreign assets.

Bankers Deposits, Other Deposits and Government Deposits are adjusted to exclude items in process of collection.

Tables 4a, 4b - Central Bank: Monthly Summary of Assets and Liabilities

Currency = notes and coins issued by the Bank of Jamaica.

Other Deposits include deposits of the National Insurance Fund and other official institutions.

Capital and Reserve Fund: Capital Paid up is J\$4 Mn.

Other Reserves include Currency, and special reserves.

Foreign Assets include balances held in banks and other institutions abroad, foreign securities, foreign notes and coins, and subscription to the International Monetary Fund and Holdings of SDRs.

Table 5 - Monetary Base (Base Money) Indicators

Table 5a: Uses of Funds

Currency issue comprises of currency in the hands of the non-bank public plus vault cash held in the banking system.

Current accounts of commercial banks comprise transaction balances and excess reserves. Data however reflect credit balances only.

Table 5b: Sources of Funds

The international reserves of the BOJ are external assets that are readily available to and controlled by the Bank for satisfying balance of payments financing requirements for intervention in the foreign exchange market to affect the foreign currency exchange rate and for other related purposes. The latter may include the maintenance of confidence in the currency and the economy.

Net Domestic Assets is the sum of BOJ's Net Claims on the Public Sector, Open-Market Operations, Net Credit to Commercial Banks, and Other.

Total Monetary Base is the sum of Net International Reserves and Net Domestic Assets.

Tables 6a - Central Bank Assets (MFSM)

This table shows the breakdown of Bank of Jamaica transferable assets as required under the Money & Financial Statistics Manual 2000 (MFSM). These include deposits, loans, securities, and holdings of foreign currency and Special Drawing Rights (SDR).

Tables 6b - Central Bank Liabilities (MFSM)

This table shows the breakdown of Bank of Jamaica liabilities, as required under the Money & Financial Statistics Manual 2000 (MFSM). These liabilities include currency in circulation, deposits included in and excluded from broad money, securities included in and excluded from broad money, and other accounts payable.

Tables 6c - Central Bank Survey (MFSM)

The Central Bank Survey covers central banking functions of the BOJ. Accordingly, this table displays the net foreign assets, net claims on central government, and components of the monetary base related to the Bank of Jamaica.

Table 7 – Depository Corporations Survey (DCS)

Depository corporations include the Bank of Jamaica, building societies, resident commercial banks, merchant banks, finance houses, and building societies. Credit unions are not now included.

The depository corporations' survey is a consolidation of the central bank survey and the other depository corporation's survey. It contains data on the depository corporations' claims on and liabilities to nonresidents. It also contains data on the depository corporations' assets that are claims on other sectors of the economy and stock and flow data on the depository corporations' liabilities that are components of broad money. Broad-money liabilities are the sum of net foreign assets, domestic credit, and other items (net), minus loans and shares & other equity.

Domestic Claims include claims on and liabilities to central government plus claims on local government, public non-financial corporations and the private sector.

Table 8 - Currency Notes: Issues, Redemptions, Circulation

Compiled from information available at the Bank of Jamaica:

- Currency Notes: Issues – Represent notes issued by Bank of Jamaica, (Banking Department) Commercial Banks, Building Societies and the Cambio Association of Jamaica during each quarter.
- Currency Notes: Redemptions – Comprise notes redeemed by the Bank of Jamaica (Banking Department) and Commercial Banks during the respective quarter.
- Currency Notes: Circulation – Represent the Stock Notes in circulation at the end of each quarter.

OTHER DEPOSITORY CORPORATIONS (ODC)

Other depository corporations are all resident depository corporations, except the Bank of Jamaica. Credit union data are not currently included in the computation of other depository corporations data. Tables are compiled in accordance with the Money & Financial Statistics Manual 2000 (MFSM).

Table 9a – ODC Assets

This table shows the breakdown of local and foreign currency asset items such as cash, securities, loans, shares, and other accounts receivable.

Table 9b – ODC Liabilities

This table shows the breakdown of local and foreign currency liability items such as deposits, loans, and other accounts payable.

Table 9c – ODC Survey (ODCS)

The ODCS represents the consolidation of positions among ODCs, i.e. the elimination of stocks and flows among commercial banks, building societies and FIA institutions as a group. In this regard, all financial flows and outstanding claims and liabilities among all ODCs mentioned above are cancelled out while maintaining the presentation of data on all stocks and flows that are claims on and liabilities to (i) the Bank of Jamaica, central government and (ii) other domestic sectors and non-residents.

Table 10a - Commercial Banks: Summary Accounts

A summary of the monthly consolidated statement of the assets and liabilities of the commercial banks.

Net Foreign Assets = balances and other foreign investments less foreign liabilities.

Credit to Private Sector:

Total Loans & Advances less loans to Central Government, plus other internal investments.

Deposits with Central bank include reserve deposits. Also includes Certificates of Deposit between August 1987 and January 1995.

Private Demand Deposits (adjusted): Private demand deposits plus bankers' drafts outstanding, less cash items in the process of collection.

Table 10b-10c - Commercial Banks: Monthly Summary of Assets and Liabilities

Compiled from monthly statements of assets and liabilities of the commercial banks.

Contra items are excluded from total assets and liabilities.

Demand Deposits are unadjusted.

Balances with Bank of Jamaica: See Notes to Table 8.

Loans and Advances to Public Sector: Central & Local Government plus other Public Entities.

Loans and Advances to Private Sector includes commercial bills discounted.

The 'Foreign Assets' category does not include foreign currency loans and advances. These are captured under the 'Loans and Advances' category. 'Foreign Liabilities' does not include foreign currency deposits. These deposits are included in the 'Deposits' category.

Table 11a – 11d - Commercial Banks: Deposits

Compiled from monthly statements of assets and liabilities of the commercial banks.

Tables 12a -12d - Analysis of Loans and Advances

Compiled from monthly reports of loans and advances submitted by the commercial banks. Since June 1970, the classification of loans and advances is based largely on the U.N. International Standard Industrial Classification. Modifications have, however, been made in order to highlight certain industries e.g. tourism which is heavily weighted in the Jamaican economy. Loans made by the Agricultural Credit Bank and the National Development Bank are included.

Table 12e – Credit Card Receivables

This table shows credit card holders' liabilities to commercial banks.

Table 13 - Commercial Banks : Clearings

Totals of cheques exchanged in the Clearing House of the Bank of Jamaica each month. The exchange of cheques include by means of delayed settlements, cheques drawn on all banks and branches in Jamaica.

Table 14a - Commercial Banks: Liquid Assets

Compiled from monthly reports of liquid assets submitted by the commercial banks. Data were an average of the Wednesdays in the month to August 1976. From September 1976, data are an average of all the working days in the month.

Cash includes domestic currency in bank vaults.

Balances with Bank of Jamaica include Cash Reserve, Current Account and Certificates of Deposit.

Specified Assets include development loans of five years and over as may be determined by the Minister.

Specified Foreign Assets related to foreign currency balances provided that such balances were obtained by purchase in Jamaica dollars after January 10, 1983 at rates other than the official rate of exchange. The inclusion of specified foreign assets in the determination of the commercial banks' liquid assets is effective as from June 1, 1983. This was terminated in March 1984.

Table 14b - Commercial Banks: Liquidity Ratios

Ratios are compiled from data in Table 14a.

Table 14c - Commercial Banks: Statutory Liquidity

Compiled from monthly reports of liquid assets submitted by commercial banks. The Banking Law 1960 as amended by the Banking (Amendment) Act 1973 requires commercial banks to maintain a minimum of 20.0 percent of their prescribed liabilities as liquid assets. Such prescribed liabilities include deposit liabilities and such other liabilities as may by notice be specified by the Bank of Jamaica. Under Section 29 (1) of the Bank of Jamaica Act, as amended by the Bank of Jamaica (Amendment) Act 1984, the Central Bank may from time to time vary the percentage of prescribed liabilities which commercial banks are required to maintain as liquid assets. This is subject to the provision that such percentage shall not be less than 20 percent or more than 50 percent.

Amendment to Section 29 of the Bank of Jamaica Act on December 23, 1991 provides the Bank of Jamaica with greater flexibility in administering the liquid assets requirements. The provision allows for different percentages to be fixed for individual banks during the period January 15 to April 14, 1992.

Movements in required minimum liquid assets ratio of the commercial banks.

1964	15.0
June 1969	7.5

Financial Institutions Licensed under the FIA Act (Merchant Banks, Finance Houses)

Table 15a - Consolidated Assets and Liabilities of F.I.A. Institutions

Compiled from monthly reports of assets and liabilities submitted by the Merchant Banks, and Finance Houses. From July 1994 data include only Merchant Banks and Finance Houses.

The 'Foreign Assets' category does not include foreign currency loans and advances. These are captured under the 'Loans and Advances' category. 'Foreign Liabilities' does not include foreign currency deposits. These deposits are included in the 'Deposits' category.

Table 15b – 15c - Analysis of Loans and Advances of F.I.A. Institutions

Compiled from monthly reports of loans and advances submitted by the Merchant Banks, and Finance Houses.

Table 16 - F.I.A. Institutions: Consolidated Statutory Liquidity

Compiled from the monthly reports of Merchant Banks, Finance Houses and Trust Companies liquid Assets. Under Section 29 of the Bank of Jamaica Act financial institutions are required to maintain a minimum of 15.0 percent of its prescribed liabilities. Adjustments in required minimum liquid assets ratio of F.I.A. Institutions are indicated below:

March 1984	15.0
June 1985	20.0
October 1985	21.0
November 1985	23.0
December 1985	25.0

Tables 17-19 - Building Societies

Compiled from information supplied by the Building Societies. Data relate to member societies. Building societies are also another group of non-bank financial institutions. The Bank of Jamaica assumed supervisory oversight of building societies in 1996.

Capital and Other Liabilities includes Statutory, General and Special Reserves.

Savings = Shares (95%) and Deposits (5%).

Table 20a - 22 - Credit Unions: Summary of Assets and Liabilities

Compiled from monthly reports of assets and liabilities submitted by the credit unions.

OTHER FINANCIAL CORPORATIONS

Table 23

Other Financial Corporations are private financial corporations (other than depository corporations) engaged primarily in provision of non-deposit-taking financial services. These institutions are supervised by the Financial Services Commission and include securities dealers, insurance companies, unit trusts, pension funds and mutual funds among others.

INTEREST RATES

Table 24 – Commercial Banks Current Deposit and Loan Rates

These rates are compiled from information reported by the commercial banks to the Economic Information and Publications Department. The rates of interest being offered on time deposits relate to amounts J\$100,000 and over. The savings rate represents an average range of rates offered on all categories of savings deposits. The average lending rate is a simple average of the range of interest rates offered on demand loans only.

Table 25a -25c - Commercial Banks Domestic Currency Weighted Deposit and Loan Rates

Compiled from monthly reports submitted by the commercial banks. These rates are based on actual volumes of all local currency deposits and loans extended at non zero rates of interest.

Table 26a -26c - Commercial Banks Foreign Currency Weighted Deposit and Loan Rates

Compiled from monthly reports submitted by the commercial banks. These rates are based on actual volumes of all foreign currency deposits and loans extended at non zero rates of interest.

Tables 27a-27c - FIA Institutions Domestic Currency Weighted Deposit and Loan Rates

The figures in Table 28a – 28c are compiled from monthly reports submitted by the FIA Institutions. These rates are weighted based on the actual volumes of all local currency deposits and loans extended at non zero rates of interest.

Tables 28a-28c - FIA Institutions Foreign Currency Weighted Deposit and Loan Rates

The figures in Table 28a – 28c are compiled from monthly reports submitted by the FIA Institutions. These rates are weighted by the actual volumes of all foreign currency deposits and loans extended at non zero rates of interest.

Tables 29a-29c - Building Societies Domestic Currency Weighted Deposit and Loan Rates

The figures in Table 29a – 29c are compiled from monthly reports submitted by the building societies. These rates are weighted by the actual volumes of all local currency deposits and loans extended at non zero rates of interest.

Tables 30a-30c - Building Societies Foreign Currency Weighted Deposit and Loan Rates

The figures in Table 30a – 30c are compiled from monthly reports submitted by the building societies. These rates are weighted by actual volumes of all foreign currency deposits and loans extended at non zero rates of interest.

MONEY & CAPITAL MARKETS

Table 31a -Government of Jamaica Treasury Bills - Issued and Outstanding

Compiled from the results of Treasury Bill tenders at the Bank of Jamaica.

Table 31b - Holders of Government of Jamaica Treasury Bills

Compiled from the records of the Bank of Jamaica. Effective August 30, 1994 the statutory ceiling on Treasury Bills was increased from J\$7.5 bn. to J\$12 bn.

Table 32 - Bank of Jamaica Open Market Operations

Compiled by the Bank of Jamaica from results of its transactions with primary dealers. Open market operations are undertaken with Government of Jamaica Treasury Bills and JDX & NDX Benchmark Notes. Data reflect Bank of Jamaica Certificates of Deposit, Central Bank Deposit, and US Dollar Indexed Bonds. The Bank ceased using reverse repurchase agreements to conduct open market operations on 27 May 2005.

Table 33a - Corporate Securities: New Issues

Compiled from reports submitted to the Bank of Jamaica by the Jamaica Stock Exchange. New Issues are shares put on the market for public subscription. Where issues were oversubscribed, the larger applications were scaled down to enable allotment in full to the smaller applications. Issues not fully subscribed were taken up by underwriters.

Tables 33b-33c - Stock Exchange Index and Activities

Compiled from monthly trading data submitted by the Jamaica Stock Exchange.

As of June 1, 2000, the Jamaica Stock Exchange began the dissemination of its three-market capitalization indices: the JSE Index, the JSE All Jamaican Composite and the JSE Select.

The JSE Index (base June 30, 1969 = 100) is an index of all the equities traded on the Stock Exchange. The index is weighted by the market capitalization of each equity.

The JSE Composite Index (base May 1, 2000 = 31931) is an index of All Equities of Jamaican Companies traded on the Stock Exchange.

The JSE Select (base June 1, 2000 = 1000) is an index of the fifteen (15) most liquid stocks trading on the exchange based on times traded and trade volume. The composition of this index is revised on an annual basis.

Calculation of Jamaica Stock Exchange (JSE) Market Index

The JSE uses the following formulae to compute its market indices:

- $\text{Current Index} = \frac{\text{Sum (Issued Volume X Current Last Sale Price)}}{\text{Index Base}}$
- $\text{Index Change} = \frac{\text{Sum [(Issued Volume} \div \text{Last Sale (Current - Previous))]}{\text{Index Base}}$
Alternatively,

- $\text{Index Change} = \text{Current Market Index} - \text{Previous Market Index}.$

The Index Base is adjusted whenever:

- The issued volume of a listed company changes as a result of the distribution of additional shares from Rights Issues and/or New Issues;
- The market capitalization increases as a result of the listing of a new company;
- The market capitalization declines, as a consequence of the de-listing of a (listed) company.

N.B. Observe that bonus issues and stock splits do not impact market capitalization since both the issued volume and the quoted market price of the particular security would have been adjusted to reflect the split or bonus. As a result, the Base Divisor remains unchanged.

EXTERNAL SECTOR

Table 34 - International Reserves

The format reflects:

- (a) Row 4 - Bank of Jamaica's net international reserves position excluding the Bank's medium term liabilities which are usually treated 'above the line' or in the capital account of the balance of payments.
- (b) Row 8 - The country's net official foreign position which includes the Bank of Jamaica's net international reserve position (row 4) as well as those of the Central Government and Selected Public Agencies. The changes in these stock figures normally provide an indication of the country's overall balance of payments surpluses or deficit position for a given period of time.
- (c) Row 11 - The BOJ medium term liabilities and commercial banks net Foreign Assets are added to Row 8 to provide a broader concept of the country's foreign position.

Data on the Government sector are obtained from the Accountant General and Government's fiscal agents. Sources for the banking sector data returns, which record the assets and liabilities of the Bank of Jamaica and the commercial banks. Official institutions are: Export Development Fund, Banana Industry Insurance Fund, Banana Board, Coconut Industry Board and the Sugar Industry Authority. The Capital Development Fund (CDF) is a statutory fund established to receive and administer the Funds accruing from the Bauxite Production Levy. Statutory Sinking Fund investments represent sums set aside and invested in foreign securities for the redemption of foreign debt. Domestic holdings of Jamaica Government securities issued in overseas markets have been excluded.

Table 35 - Balance of Visible Trade

Compiled from data on External Trade published by the Statistical Institute of Jamaica. Exports include re-exports.

Tables 36a-36b - Value of Exports and Imports by Sections of the S.I.T.C.

The format of Tables 36a and 36b reflect the standards recorded in the sixth edition of the Balance of Payments Manual. Merchandise trade encompasses general merchandise, goods for processing, repairs on goods, goods procured in ports by carriers and imports and exports of the free zones. The Statistical Institute of Jamaica (STATIN) provides data on the first three components in an aggregated form, which are based on the Jamaica Customs Department records. The data from STATIN are categorized as general merchandise. It should be noted that general merchandise transactions of the free zones are not reported by STATIN, and are therefore carried as a line item in the trade tables. Data on the other components are obtained by way of enterprise surveys.

S.I.T.C. denotes Standard International Trade Classification

Imports are valued at c.i.f. (cost, insurance, freight) in Jamaica dollars.

Exports consist of exports of domestic products and re-exports of imported goods which have previously been cleared by the Jamaica Customs Department, as well as free zone exports and goods procured in ports.

Exports are valued at f.o.b. prices (free on board) in Jamaica dollars.

Tables 37a-37b – Foreign Direct Investment

FDIs are a measure of foreign ownership of the local, productive assets of a country, including factories, land and organizations. They represent net inflows of investment to acquire a lasting management interest (10 percent or more of voting stock) in an enterprise operating in Jamaica, other than that of the investor. Inflows to Jamaica from foreign sources as well as outflows from Jamaica to the rest of the world are represented.

Table 38a - Tourism Visitor Statistics

Compiled from data provided by the Jamaica Tourist Board and the Ministry of Tourism. The total number of visitors includes all foreign visitors and armed forces personnel on shore leave. Foreign crews and other carrier personnel, foreign diplomats, technical assistance personnel and migrant workers are excluded. Landed visitors are those staying in the island one night or more. Hotel room occupancy relates to the number of guests to the available beds. Data revised from 1995 to include non-resident Jamaicans.

Table 38b - Tourism Visitor by Length of Stay

Up to February 1966 long-stay visitors referred to those guests remaining over three guest-nights and short-stay three guest-nights and under. Since March 1966, the definition of long-stay visitors refers to those remaining three guest-nights and over while short-stay one to two guest-nights. Cruise passengers are passengers who disembark from cruise ships and return on board within a few hours to leave for the next port-of-call. Armed forces are military personnel on shore leave.

Table 39 – International Investment Position

The international investment position (IIP) data represent Jamaica's stock of external financial assets and liabilities of the public and private sectors at a particular point in time. The difference between the stock of external assets and external liabilities is the net IIP for Jamaica.

Tables 40a - Balance of Payments (BPM 5)

This table records Jamaica's transactions with the rest of the world during a given period. The three main sources of data are surveys, foreign exchange records and administrative and other documentary sources.

Tables 40b - Balance of Payments (BPM 6)

In keeping with the IMF's latest Balance of Payments standard (BPM6, 2009), this table provides more detailed information on *Financial Account* transactions, which are aimed at enhancing the understanding of the types of financing and investment associated with transactions and transfers reflected in the *Current Account* and *Capital Account*.

Table 41 - Caricom Countries: Foreign Reserves

Compiled from data on the Net International Reserves for Trinidad and Barbados.

Table 42- Combined Foreign Exchange Flows of Authorized Dealers and Cambios

The data represents the foreign exchange purchases and sales volumes for Authorized Dealers and Cambios of all currencies stated in the equivalent of US\$Mn. Below is a list of the Authorized Dealers and Cambios

Table 43 - Selected Exchange Rates

The weighted average buying and selling exchange rate of one US\$ vis-a-vis the Jamaica dollar as at the last trading day in a month.

Table 44a - Foreign Currency Accounts

'A' accounts are tax free foreign currency accounts held by non-residents

Deposits to foreign currency 'B' accounts are sold to Commercial Banks and Building Societies, and the Jamaica dollar equivalent credited to the account at the existing rate of exchange.

Other accounts are held by residents and subject to the ordinary tax laws of Jamaica.

Table 44b – Gross External Debt

The IMF's Gross External Debt Guide 2013 defines gross external debt as follows:

Gross external debt, at any given time, is the outstanding amount of those actual current, and not contingent, liabilities that require payment(s) of principal and/or interest by the debtor at some point(s) in the future and that are owed to nonresidents by residents of an economy.

Data in this table are sourced from the Ministry of Finance (MOF) and BOJ's survey of selected financial and non-financial institutions.

Table 45 – Private Sector Transfers

According to the fifth edition of the Balance of Payments Manual remittances to an economy are defined primarily by 'Workers Remittances'. Workers Remittances cover current transfers by migrants who are employed in new economies and considered residents there. The revised BOP manual proposes an expansion in the items considered remittances. Firstly, the concept 'workers remittance' is replaced with personal transfers. Secondly, the concepts of 'personal remittances', 'total remittances', and 'transfers to nonprofit institutions serving households' are introduced. Within the balance of payments framework, investments in the economy by migrants, such as bank deposits and portfolio investments are excluded from remittances.

PUBLIC FINANCE & DEBT

Table 46 - Government Operations

Compiled from monthly reports received from the Ministry of Finance.

Table 47 National Debt - Internal

The National Internal Debt table is compiled from the records of B.O.J. and Ministry of Finance. Total Bonds include Land Bonds, Debentures, US\$ Indexed Bonds and US\$ Denominated Bonds.

Table 48a - Government Direct Externally Issued Debt

Data on Direct Externally Issued Debt data are compiled from records of the Ministry of the Finance and represent medium and long term loans & securities of the Government of Jamaica regardless of the residency of the holder of the debt. It excludes Government Guaranteed Debt issued outside of Jamaica on the primary market.

Table 48b - Government Guaranteed Externally Issued Debt

Government Guaranteed Externally Issued Debt represents non-central government loans & securities issued outside of Jamaica on the primary market, regardless of the residency of the holder of the debt, with the Government of Jamaica as guarantor. This category of debt is a potential liability to central government: in the event of default, the government has to assume responsibility of repayment. The information on the outstanding balances is compiled from regular returns which are supplied by the guaranteed institutions contracting these loans.

Tables 48c-48d - Medium and Long-Term Public and Publicly Guaranteed Externally Issued Debt

The figures shown represent the National Externally Issued Debt of the Government of Jamaica (GOJ) based on the initial issue of the debt and are comprised of Government Direct Externally Issued Debt, Government Guaranteed Externally Issued Debt and Bank of Jamaica's medium and long-term foreign debt.

Medium and long-term public external debt have original or extended maturity of more than one year and repayable in foreign currency.

Table 49 - Debt and Debt Service Indicators.

Compiled from the records of the Bank of Jamaica and the Ministry of Finance.

PRICES & PRODUCTION

Tables 50a – Jamaica’s Inflation Rates

Inflation Rates are calculated and published each month by the Statistical Institute of Jamaica (STATIN). Inflation is measured through the use of the Consumer Price Index, which captures the rate of price change for goods and services consumed in Jamaica

Tables 50b – Comparative Inflation Rates

This table shows the annual point-to-point inflation rates of Jamaica and each of its major trading partners.

51 - 52d - Consumer Price Indices (Jan. 1988 = 100)

The Consumer Price Index (CPI) is compiled and published each month by the Statistical Institute of Jamaica (STATIN). It is based on a basket of goods and services containing 480 items. The current series which has a base period of December 2006 reflect data captured in a Household Expenditure Survey conducted from June 2004 to March 2005. The survey covered lower and middle income households with median expenditure of \$309,000 in 2004/5, representing 85 per cent of all households.

The geographic regions covered by the CPI series are:

- **Greater Kingston Metropolitan Area (GKMA):** Kingston, Urban St. Andrew, Portmore, Spanish Town and Bull Bay;
- **Other Urban Centres:** the parish capitals and 32 other urban centres (main towns) outside of GKMA; and
- **Rural Areas:** all the remaining areas not identified as being part of GKMA and Other Urban Centres.

All commodities in the household expenditure survey are divided into twelve (12) major *Expenditure Divisions* that are based on the **Classification of Individual Consumption According to Purpose (COICOP)** - a system developed by the United Nations. The 12 broad *Expenditure Divisions* are:

- Food and Non-Alcoholic Beverages;
- Alcoholic Beverages and Tobacco;
- Clothing and Footwear;
- Housing, Water, Electricity, Gas and Other Fuels;
- Furnishings, Household Equipment and Routine Household Maintenance;
- Health;
- Transport;
- Communication;
- Recreation and Culture;
- Education;
- Restaurants and Hotels; and
- Miscellaneous Goods and Services.

The Divisions comprise Groups of related items. These Groups are further broken down into Classes.

The CPI for each month is computed using a weighted Laspeyres Index methodology.

Table 53 - Production of Selected Commodities

Compiled from monthly reports submitted by the Jamaica Bauxite Institute, the Bauxite Companies, the Collector General's Department, the Sugar Manufacturers' Association, Banana Board, the Jamaica Public Service Company Limited and firms engaged in manufacturing. Bauxite includes bauxite converted into alumina in Jamaica. The figures for bananas refer to exports only. Figures for the other commodities are based on information provided directly by the firms involved.

Tables 54a – 54e - Gross Domestic Product (GDP)

Gross Domestic Product is the total value of final goods and services produced within a country's borders in a year. The change in gross domestic product (GDP) from one period to another results from the contribution of two changes, one being the change in the volume of goods and services produced, and the other in the price at which they are sold.

GDP at current prices reflects both these changes, as production for the period is measured at the prices of that period. GDP at constant prices on the other hand reflects only the changes in the volume of production. This indicator measures production of the period at the prices of another period (referred to as the base year).

As part of the system of national accounts, The Statistical Institute of Jamaica carried out revisions in order to incorporate the most current information from regular surveys, censuses, financial records and administrative data. Revisions were undertaken on the annual national accounts, which covered the period from 2001 to 2010, and included the compilation of a supply and use table for 2007, rebasing of the constant price estimates from 2003 to 2007 and revised estimates for:

1. Accounts of the nation
 - Gross domestic product by expenditure and income
 - Generation and use of disposable income
 - Capital accounts
 - Rest of the world accounts
2. Value added by industry

PAYMENTS SYSTEM

Tables 55a – Automated Banking Machine (ABM) Transactions

These data show the volume and value of commercial bank withdrawals made at local ABMs using local and foreign currency debit and credit cards. Withdrawals made using debit cards are deducted from the user's accounts. However, credit card withdrawals are considered loans or advances.

Tables 55b – Point of Sale (POS) Transactions

These data show the volume and value of payments made at point of sale terminals in business places such as supermarkets and service stations using commercial bank debit and credit cards.

Tables 55c – Cheque Transactions

These data show the volume and value of cheques cleared and settled in the payments system.

OTHER

Tables 56a – 56b - Instalment Credit

Compiled from monthly reports submitted by FIA institutions and commercial banks engaged in hire purchase financing and other instalment lending. FIA institutions include Merchant banks and Finance Houses.

Table 57 - Housing Units Started and Completed

An estimate of the number of housing units on which construction was started and completed.

Table 58 - Number and Value of National Housing Trust (NHT) Mortgages

Compiled from reports made by the National Housing Trust(NHT) and recorded by the Planning Institute of Jamaica. Represents the number of mortgages issued by the NHT and the corresponding values of these loans for each year.

Table 59 – Selected Demographic Indicators

Compiled from reports published by the Statistical Institute of Jamaica.
