Notes:

ABMs in Operation - Refers to automated banking/teller machines that facilitate the successful completion of cash transactions (that is, cash deposits and withdrawals) by customers as at the time of reporting. For the purposes of this publication, machines with faults that do not inhibit the successful completion of cash transactions by customers are classified as operational.

Region - For the purposes of this publication, the KMA includes the parishes of Kingston and Saint Andrew, and Other Urban includes the parishes of Saint Catherine, Saint Ann, and Saint James. All other parishes are classified as Rural.

Up Time - Refers to the duration of time (during a 24-hour period) that the machine is operational and available for use for cash transactions. This is the opposite of down time.

Average Recovery Time - Refers to the average time (in hours) taken for the restoration of the normal functionality of an ABM following a fault(s) which inhibits the usability of the machine by customers for cash transactions. Recovery time is computed from the time of the first notification of the fault to the time that the machine is fully restored and available for use by the public.

Blank spaces indicate that data is currently not available.

Bank of Nova Scotia Jamaica Limited advises that outages for the month of September were primarily due to the bank's ongoing initiative to refresh or replace several older machines in its fleet. Depending on the location, this initiative requires impacted machines to be down for approximately four to five days prior to restoration of service.
